Ms. Mindy Walters
Bio-Systems International
P.O. Box 330
Roscoe, IL 61073-0330

Dear Ms. Walters:

This letter is to acknowledge receipt of the information concerning the products "**Bio-Systems L1020/FL and Bio-Systems SK9 (Septic-Klean III)**" for statewide use in Florida. No product sold in the state for use in onsite sewage treatment and disposal systems may contain any substance in concentrations or amounts that would interfere with or prevent the successful operation of such system, or that would cause discharges from such systems to violate applicable water quality standards, section 381.0065(4)(m), Florida Statutes.

The staff has reviewed the information provided in the MSDS, 96-hr LC₅₀ toxicity test results, and laboratory results on volatile organic compounds for the products. The department has determined that the products, "**Bio-Systems L1020/FL and Bio-Systems SK9 (Septic-Klean III)**", are in compliance with s. 381.0065(4)(m), F.S. and has no objection to the use of the products in accordance with manufacturer's specifications. Please be advised that all rules pertaining to the use of the products shall be observed and that there shall be no advertising of the products as state approved.

Be advised that the department is not a testing agency and that this determination reflects only a review of the information submitted by you for compliance with Florida Statutes and Florida Administrative Code. The product evaluation does not investigate the validity of performance claims by manufacturers. For this reason, departmental acceptance must not be interpreted as certifying effectiveness, endorsing or recommending use of an additive. The Florida Department of Health also does not assume liability for any promise, guarantee or expectation from purchasing or using an additive. The department reserves the right to withdraw acceptance if product formulation or ingredients are modified after product evaluation by the department or subsequently found not to be in compliance with rule.

This letter of product compliance is limited to Department of Health jurisdictional circumstances as defined in Chapter 64E-6, Florida Administrative Code and Chapter 381.0065, Florida Statutes.

If we may be of further assistance or should you have any additional questions regarding this letter, please call Dr. Sonia Cruz at (407) 317-7325.

Sincerely,

Gerald Briggs, Chief
Bureau of Onsite Sewage Programs

Division of Environmental Health, Bureau of Onsite Sewage Programs
4052 Bald Cypress Way, Bin #A08, Tallahassee, Florida 32399-1713

L1020

**Digests and Liquefies Waste Plus
Immediate Malodor Neutralization**

- Non-toxic (when used as directed)
- Non-corrosive
- Reduces B.O.D. & C.O.D.
- 100% Alive Bacteria
- Non-pathenogenic
- Upgrades Effluent Quality
- Reduces Suspended Solids
- Reduces Odors (Hydrogen Sulfide)
- Liquid Form (Easy to use)

Caution: Keep out of reach of children!

Avoid all contact with open wounds. Keep container closed when not using. Store out of direct sunlight. Do not take internally. Do not use on food contact surfaces. Avoid contamination of food during use and storage.

Note: Do not subject to extremely hot or boiling water, disinfectants or chlorinated dish washing products.

This product does not replace the need for a regular program of inspection and maintenance, including having the treatment tank pumped out whenever the sludge and scum occupies one-third of the tank's liquid capacity.
